About This Issue

The present volume features the International Conference Biomath 2016:

`http://www.biomath.bg/2016/index.php`

This issue contains abstracts of the presentations at this conference as well as two original research articles:

E I De Laurentiis, D Girodat, E Mercier, H-J Wieden, Using Rapid Kinetics and Molecular Dynamics Simulations to Study Biomolecular Information Processing and Design, Biomath Communications 3 (2016) 74–81, `http://dx.doi.org/10.11145/bmc.2016.04.167`

S Tcholakova, N Politova, N Denkov, Kinetics of Drop Breakage and Drop-Drop Coalescence in Turbulent Flow, Biomath Communications 3 (2016) 82–92, `http://dx.doi.org/10.11145/bmc.2016.04.157`
